CHICAGO, Aug. 25.—The petition of Belling, the St. Joseph wife murderer, for a writ of error and stay of execution was heard by Judge MacFarlane to-day and denied by Mrs. Clark. The parties in the affair are neighbors. Mrs. Clark is the young and fascinating wife of a somewhat elderly gentleman.

tachment placed on her property for \$5,000 in an action of tort brought by Mrs. Fannie Laine. The latter is the wife of M. Laine, a well-known manufacturer. The action brought by the wife is for damages for the alleged alienation of her husband's affection by Mrs. Clark. The parties in the affair are neighbors. Mrs. Clark is the young and fascinating wife of a somewhat elderly gentleman.

GOTHAM'S HORROR.

Workmen Busy Removing Bodies From the Park Place Ruins.

THE WORST FEARS AS TO THE EXTENT OF THE CATASTROPE FULLY REALIZED—FORTY-TWO BODIES SO FAR REVEALED—MOVING THE DEBRIS—CREMATED WHILE ASLEEP—FATAL FIGHT CASUALTIES.

NEW YORK, Aug. 25.—From midnight until the city awoke to its business life, the scenes witnessed by the watchmen at the fatal fire on Park place proved that the worst fears as to the extent of the awful catastrophe were to be fully realized. The bodies that were recovered during that time and the horrible possibilities that lurk in the mishap shadowy vision of human forms crushed and jammed amid the bulk of machinery and weighty bodies, assured the police and firemen that the worst evidence is yet to come. The greater number of the unfortunate victims will be found underneath the debris yet to be removed. No such managed remains of humanity have been recovered during the search as the specimen shown during the night. Bodies maimed beyond all recognition and so fearful to look upon that even firemen turned away weakened by the sight. The Italians, for the first time since they were employed, did good work in gathering up the chaotic remains of the victims. Foreman Farley of Truck No. 12 had charge of the work last night, and although the men had to struggle against great difficulties, remarkable progress was made. This morning twenty bodies had been identified, and there are eighteen unidentified at the morgue, and four bodies were in sight in the ruins that morning, though forty-two so far revealed.

MR. TRIPPE'S BODY.

The body of Frederick W. Tripp, proprietor of the drug store at No. 76 Park place, was found at 9:30 o'clock. It was so badly mangled and burned that it was at first impossible to tell whether it was that of a man or a woman. Finally friends of Mr. Tripp recognized a diamond ring on his finger and a gold chain with the initial "W. T." on which it was found resting the body.

A WIDOW DEFENDED HER CASTLE.

ELGIN, Ill., Aug. 25.—Within the past thirty days there have been in this city about seventy-five small fires of barns, little dwelling houses, etc. Late last night a man named John Taylor, a small carpenter, was shot dead in the doorway of his house. In his scheme, it is alleged, was to burn property and then get the jobs of repairing. It was his prompt appearance just after the fire and soliciting the repairing jobs that led to his arrest. The evidence is strong against him.

MR. TRIPPE'S BODY.

The body of Frederick W. Tripp, proprietor of the drug store at No. 76 Park place, was found at 9:30 o'clock. It was so badly mangled and burned that it was at first impossible to tell whether it was that of a man or a woman. Finally friends of Mr. Tripp recognized a diamond ring on his finger and a gold chain with the initial "W. T." on which it was found resting the body.

THE BODY OF W. H. ELLIS.

The body of W. H. Ellis of the firm of Ells & McDonald, 78 Park place, was taken out of the ruins at 11 o'clock. It was burned and mangled almost out of resemblance to humanity. His body was entirely covered with brandy and soda, previous to the execution. The condemned was allowed a smokes and a drink before he was led to the gallows. The condemned was a negro.

THE LAST STRUGGLE.

THE RIVAL ARMIES RESTING BEFORE A DECISIVE BATTLE.

NEW YORK, Aug. 25.—The decisive battle of the Chilian revolution may be fought out-to-day. Cablegrams from Valparaiso give graphic accounts of the struggle between the contending forces. The rebels have gained the upper hand, and if it fails before the insurgents, Balmaceda's safety will lie in flight.

THE LABOR WORLD.

A NATIONAL WORKERS' UNION TO BE ORGANIZED.

BOSTON, Mass., Aug. 25.—At the meeting of the Boston Workers' Alliance yesterday letters were received from Philadelphia, Pittsburgh, Washington, New York, Denver and San Francisco, calling a meeting of the organization of Alliances in those cities and approving the suggestion of the Boston Alliance that a national organization be formed.

THE LAKE ERIE STRIKE.

INDIANAPOLIS, Ind., Aug. 25.—Special to the Press from Lake Erie, says: Up to noon to day there has been no change in the situation of the strike of the lake Erie & Western freight conductors and brakemen. The company has agreed to make a raise of \$1.50 per month additional, said to be experienced in railroad work, from Chicago and St. Louis. They claim to have now seventy men ready to go out with clubs, but at noon to day only twenty-four were on duty.

THE LAST WARNING.

MASSACRED BY NATIVES.

Missouri Corporations Notified to Comply With the Laws.

ST. LOUIS MERCHANTS AND MANUFACTURERS AMONG THE DELINQUENTS.

Every Corporation Required to Swear That It Is Not Interested in Any Pool or Trust to Fix Prices and Also to Make a Report of Its Business and Profits.

A large number of St. Louis merchants and manufacturers received notice from the Secretary of State to-day that it was his duty to enforce the State laws designed to make annual affidavit of their business to the State, and to swear affidavit that they are not interested in any trust or pool for the establishment of prices. The laws referred to were passed by the last Legislature in April last and one of them is known as the anti-pool and anti-trust law. It is very strict in its provisions and was intended to break up the connection of a number of St. Louis manufacturers and mercantile houses with trusts and pools, whether they are located in this State alone or extend to other States.

ANTI-POOL LAW.

The first section says that any corporation organized under the laws of this or any other State or country, for transacting or conducting any kind of business in this State, or any partnership or individual or other association of persons whatsoever, who shall create, enter into, become a member of or a party to any pool, trust, agreement, combination, confederation or understanding with any other corporation, partnership, or individual or any other person or association of persons, to regulate or fix the price of any article or article of merchandise or commodity, or article of manufacture or service, or to pool production, shall be deemed guilty of a conspiracy to defraud.

The penalty of violating the law is the payment of \$100 for every day of the violation, three-fourths of the money received in St. Louis to enter into the City Treasury and the other fourth into the pockets of the Circuit Attorney and other officers. Outside of St. Louis the County gets three-tenths and the Prosecuting Attorney the other fourth, and in case of appeal the Circuit Attorney or Prosecuting Attorney must share his one-fourth with the Attorney General. The fat men are allowed in order to insure a vigorous enforcement of the law.

ALL CONTRACTS VOID.

Any contract made with such pool or trust is void in so far as the purchaser of goods from a company convicted of violating the law is exempted from all liability to pay them.

And there are corporations liable to a forfeiture of \$100 a day for violating the law, liable also to a forfeiture of their charter or corporate rights, and some official or director of every corporation is required to make affidavit once a year to the following and send it to the Attorney General:

AFFIDAVIT.

State of Missouri, County of ——. I, ——, president, secretary, treasurer or director of the corporation known and styled —— incorporated under the laws of ——, on the day of ——, and now transacting or conducting business in the State of Missouri, do solemnly swear that I represent said corporation in the making of this affidavit; and do further solemnly swear that the said corporation has not, since the day of ——, naming the day upon which it was incorporated, entered into or become a member of or a party to, and was not, on the day of ——, named in any affidavit, and is not now, a member of or a party to any pool, trust, agreement, combination, confederation or understanding with any other corporation, partnership, individual or any other person or association of persons, to regulate or fix the price of any article or article of merchandise or commodity, or article of manufacture, mixed, produced or sold in this State, or any other State or country, or to pool any trust certificates, or for any corporation, agent, officer or employee, or for any director or director, or for any stockholder or director thereof, the purpose and effect of which combination or arrangement would be to place the management or control of such combination or arrangement in the hands of any trustee or trustees, with the intent to fix the price of the products and articles or any article or articles of manufacture or consumption, or to prevent or restrain or diminish the manufacture or output of any such article.

(President, secretary, treasurer or director.) Subscribed and sworn to before me ——, this day of ——, ——.

SECRETARY SECRETARY'S ACTION.

On the 1st of last July Secretary Lester sent notices to all the corporations in the State to make the above affidavit and two weeks later had that notified them to send him a statement of their business for the previous year, and any affidavit copies have been received to either of these notices. He now says to the delinquents: "It is now my duty to report this fact to the Prosecuting Attorney, and, at his duty to at once bring suit against you to recover the fines and penalties provided by those laws, the nature of which can be ascertained by referring to the copy of the laws which I have mailed to you. I earnestly desire to save your corporation from the annoyance and cost of litigation, which must follow a disregard of these laws. I hereby again call your attention to the most important results of this law, and acknowledge the receipt of this letter, and indicate that you intend at the earliest practicable moment to comply with both of the laws in question, in which event I shall wait upon you as far as I can, consistently with my duty to the public."

ANNUAL STATEMENT OF BUSINESS.

In the annual statement of its business, every incorporated stock company, except railroads, must include in its statement which are subject to special laws applying to them, with the exceptions of such corporations as are exempt from taxation, is required on the 1st of every July to report to the Secretary of State a statement of its principal business office, the name of its president and secretary, the amount of its capital stock, both subscribed and paid up, the value per unit of its stock, and the actual value of its stock at the time of making said report, the cash and personal property, and all of its real estate within this State on the first day of June immediately preceding, and the amount of taxes, city, county and state, paid by the corporation in this state for the year last preceding the report and when and to whom the same were paid.

OUTSIDE COMPANIES ALSO.

Outside companies doing business in the State must make the annual statement, the same report, excepting as to the amount, and value of its stock.

The annual statements are to be sworn to and filed in the office of the State by July 1 and after July 20 the delinquents will be liable to a fine of from \$100 to \$1,000 and after thirty days more they are liable to another such fine and so on to the end of time.

THE question discussed at the Peril-

THE newspapers which insisted that
Secretary NOLIS intended to resign,
whether he knew anything about that in-

blundered?

THE Forest Park "Zoo" is proving its
popularity with the people and the peo-
ple should show their appreciation of it by
giving it a fund which will not only enable
those in charge of it to clear it of all in-
detachment, but add to its attractions until
it becomes the finest in the country.

THESE are a lot of foolishness written and
spoken about the "100 cent dollar." Sem-
ible men of all parties are united in favor of it
and the only question is, Shall we have only
enough "100 cent dollars" to fill the pockets
of the capitalists or enough to go around
among all the people? The Republican
leaders seem to think that good dollars
should be limited to the capacity of capi-
talistic coffers.

THE threat of Lord SALISBURY that the
House of Lords will frustrate the home
rule intentions of the British democracy
is pronounced impudent by the English
newspapers. It was certainly
very incautious, for it has given the

Gladstonians and Radicals an opportunity
which they eagerly seize. The House of
Lords is a glass structure whose occupants
are usually very careful not to throw
stones.

A LESSON IN WHEAT.

The wheat market took a boom from the
estimate of Mr. Wm. E. BEAR, Bradstreet's
English crop statistician, that Europe
would want 281,000,000 bushels of our
wheat. Upon later information he now
marks up the European requirement to
\$20,000,000 bushels. The highest estimate by
trustworthy statisticians of our yield
this year is 600,000,000 bushels, or about
80,000,000 more than the great crop of 1884.
This would give us 350,000,000 bushels for
home use and allow us only 200,000,000, or
70,000,000 less than the demand, for ex-
port.

Yet, in full view of the well ascertained
deficit and assured demand for more than
all the wheat we will have to spare for ex-
port, and with New York exporting wheat
at \$1 or less and offering only \$1.05 for De-
cember delivery, the farmers are forward-
ing wheat as fast as railroads and elevators
can handle it. Several thousand carloads
are reported blocking the side tracks at
Kansas City and 600 cars a day coming in.

This does not look much like a success-
ful grain cornering operation on the part
of the farmers, nor does it threaten to put
the price up above the exporting point, as
some alarmists have feared the farmers
would do. It even looks as if the farmers
of the West had despaired of ever again
seeing wheat a dollar a bushel and were
fully unconvinced a Governor of the
great State of Missouri.

CANADA AND AMERICAN CATTLE.

Premier Abbott Explains the Question of
Allowing Importation.

OTTAWA, Ont., Aug. 25.—Premier Abbott, in
the Senate, in reply to a question by Senator
Power, stated that the Government had still
under consideration the question of allowing
the importation of American live cattle to be
shipped into Canada. As far as he had
been brought up to date he said he would
state exactly how the matter stood.
It had been decided that it was necessary
to allow the shipment of American cattle
through Canada from one point to another in the United States. That
was done to prevent the transmission of intermediate
points of Canadian territory and fed
and watered. Of course, the Canadian
regulations were observed and the Govern-
ment saw no serious difference in allowing the
importation of these cattle into
Canada than there was for ex-
port. Correspondence with the Imperial
authorities on the subject had led
to the conclusion that the Canadian Government
of certain rules and regulations of guarantee
to be enforced as safe guards from infection
in the importation of cattle from the United States into Canada.
These regulations were submitted to the Imperial Privy Council, which declared
that they were in every way suitable for the
purpose intended. Although the Government
had not yet finally decided the question, he
could assure the House that, in all probability,
there would be established at several points in Canada large meat packing
concerns, as a large number of prominent
cattle men desired to start enterprises of this
kind.

MINNEAPOLIS' NATIONAL CEMETERY.

A Project to Convert It Into a Large
Park.

MINNEAPOLIS, Minn., Aug. 25.—It is an-
nounced at army headquarters in St. Paul
that the project is being considered by the
Government of converting the burial ground
now known as the National Cemetery into a
large park, laid out with trees and walks as
one of the beauty spots of the west.
The removal of the bodies from all
abandoned posts has been completed. They have been buried
in a single great cemetery in the government
where also lie those who fell in the
massacre with their commander. There has
been a general change in the idea of the
idea that Custer's last resting place and those of the men who died with him
should be left as they are, and that mere
graves obelisks in the desert, surrounded by rusting iron rails.
The plan proposed is that the cost of
rounding the present cemetery, would, it is
estimated, cost but a trifle as compared with
less than \$100,000 per acre, the amount of
Government expense. All army officers
favor the idea and say it should be done for
the honor of the country.

Married on the Sly.

MACON, Mo., Aug. 25.—Miss Eliza Vancil of
Quincy, Ill., and Harry Adams were married
yesterday. Mr. Vancil is a son of George Vancil,
a daughter of the sheriff of Acadia County, and
came here last week to visit Miss Gertrude McCullum. On Sunday Adams put in
an application for a license to do business in
Acadia formerly kept a restaurant in
Quincy but Miss Vancil's parents objected to
the restaurant business in Joplin so he
left the restaurant business in Joplin.

An item has been going the rounds of the
